

To determine our set up and start times please review our policies below:

ARRIVAL AND SET UP:

We arrive at the event location 45 minutes prior to our start time which is the time your guests are received in the area that we are to be set up in. (ex. We'll arrive at 4:45 pm at the loading dock for a 5:30 pm guest arrival / doors open to guest.)

It takes us 1/2 hour to set up allowing 15 minutes extra for unexpected set up delays. (ex. Requested banquet skirted 6' table and 2 chairs not available to place our equipment on, no working electrical outlets etc.)

START TIME:

Our start time is when your doors open to your guests in the area that we are to be set up in. This is for safety and presentation. We do not wheel in our equipment with guest in the room or through an occupied guest area. Our equipment is on carts and weighs in excess of 100 lbs and poses a safety issue if guests are in the aisles and at tables, also for professionalism we do not set up in front of your guests during an event.

END TIME:

Our ending time follows our contracted end time. If you would like to extend, please inform the office prior to the event date, or check with your DJ at least 1/2 hour before the contracted end time for extension approval and rate.

Mahalo,

~Daryl
